CAREER SUMMARY

Full Stack Developer with hands-on experience in Python, Django, Django REST Framework, React.js, Node.js, Express.js, MySQL, and MongoDB. Built and deployed multiple scalable web applications including real-time chat systems, finance dashboards, Kanban boards, and job portals. Currently working as a Web Development Intern at AjursInsights Pvt Ltd with experience in production-level development, debugging, API integration, and responsive web application development.

TECHNICAL SKILLS

- **Languages** : Python, JavaScript, PHP
- **Frontend**: HTML5, CSS3, React.js, Tailwind CSS, Bootstrap
- **Backend** : Django, Django REST Framework, Node.js, Express.js
- **Databases** : MySQL, MongoDB
- **Tools** : Git, GitHub, Postman, Vercel, Railway, Render, Netlify

PROFESSIONAL EXPERIENCE

• PYTHON FULL-STACK DEVELOPER INTERN – QSPIDERS | JAN 2025 – JUNE 2025

Developed a full-stack e-commerce web application using Django, Python, and MySQL. Implemented authentication, role-based access control, backend APIs, database design, and responsive UI while gaining hands-on experience in development, testing, and deployment.

• FULL STACK WEB DEVELOPMENT INTERN - CODTECH IT SOLUTIONS | AUG 2025 – SEPT 2025

Worked on full-stack application development using React.js, Node.js, and Express.js. Built REST APIs, implemented CRUD operations, optimized MongoDB queries, and developed responsive user interfaces following clean architecture practices.

• WEB DEVELOPMENT INTERN – AjursInsights Pvt Ltd | Apr 2026 – Present

Working on production-level web development tasks involving frontend development, bug fixing, feature implementation, debugging, and maintaining responsive web applications in a real-world development environment.

PROJECTS

KANBAN BOARD APPLICATION :

- **Technologies** : React.js, Django REST Framework, WebSockets
- Built a real-time task management system that allows teams to organize and track work using boards, lists, and cards.
- Implemented secure authentication and role-based access for collaborative workflows.
- Enabled live updates and drag-and-drop functionality for seamless task management.

LET'S CHAT :

- **Technologies** : React.js, Django, Django REST Framework, Django Channels, WebSockets, MySQL, Tailwind CSS
- Developed a real-time chat web application supporting one-to-one and group messaging, with features like JWT authentication, typing indicators, online/offline status, message delivery/read receipts, and image/file sharing, using WebSockets for instant communication and Django Channels as the channel layer for real-time message handling.

FINANCE DASHBOARD SYSTEM :

- **Technologies** : React.js, Django, DRF, MySQL, JWT, Chart.js, Tailwind CSS.
- Built a role-based Finance Dashboard System enabling users to track income, expenses, and budgets through interactive charts and financial reports, with secure authentication and admin-controlled user and transaction management.

JOB PORTAL:

- **Technologies** : MERN Stack (MongoDB, Express.js, React.js, Node.js), HTML, CSS, Tailwind CSS.
- Developed a full-stack job portal with user authentication, job listings, job application flow, resume upload, and application status tracking, along with an admin panel to manage jobs and view applicants.
